#### CONDITION OF THE MARKETS

After a Slight Break Wheat Rallies and Closes Higher on All Futures.

Good Inquiry for Corn and Oats Causes an Advance in Those Cereals-Pork Irregular with Little Change in Price at the Close.

## MONEY, STOCKS AND BONDS.

Material Advances Scored for Nearly All Shares on the New York List. NEW YORK, June 3.-Money on call was easy, ranging from 312 to 6 per cent., the last loan being made at 312 per cent., clos-

ing offered at 312 per cent. Prime mercantile paper 434 @612 per cent. Sterling exchange quiet and barely steady at \$4.84 for sixty-day bills and \$4.86 for de-

The total sales of stocks to-day were 338,-607 shares, including the following: Atchison, 33,315; Delaware, Lackawanna & Western, 13,180; Erie, 4,200; Lake Shore, 4,763; Louisville & Nashville, 19,950; Missouri Pacific, 8,910; New York Central, 3,345; Northern Pacific, 3,305; Northern Pacific, preferred, 3,650; Oregon Transcontinental, 12,050: Reading, 15,600; Richmond & West Point. 14,220; St. Paul, 17,985; Texas Pacfic, 8,330; Union Pacific, 3,175.

The stock market, to-day, was compara-tively quiet, only Sugar Refineries showing activity equal to that of the past few days, and, while owing to a faise report of a decision of the Court of Appeals against the trust, the market was feverish and unsettled for the entire forenoon; a marked strong tone was developed later, and material advances were scored right through the entire list, and the upward movement ceased only with the close of business. To this result considerable good news contributed, and the money market failed to show any of the scarcity noticed just before the close of last evening. Among the most influential factors in the rise were news that the Western roads had finally agreed upon a new passenger association, the statement that Rock Island will show over 4 per cent. earned on the stock after paying a large amount of extraordinary expenses, one that the Northwestern's report for the year will be the best ever issued, and the re-newal of hopes of a silver bill on the expectation that discussion in the House of Representatives will be given to-day. The feeling on this point was shown by a new advance in the price of silver, and the feeling upon the money question was altogether more settled than for a long time past.

The opening of the market under the influence of higher London figures and good London buying was strong, but it was met at the outset by a report that the Court of Appeals had rendered a decision declaring the Sugar Trust illegal, which precipitated a further decline in Sugar, after its opening down 1½ per cent., at 71½. There were frequent and violent fluctuations on the subsequent denials of the report, and a drop to 67½ was followed by a rally to over 71, but it afterward got as low as 67, finally advance in the price of silver, and the feel-71, but it afterward got as low as 67, finally closing at 72. Chicago Gas was less active and stronger than Sugar, but it sympathized closely with its movements and scored some wide fluctua-

tions. When the trust matter had been cleared up there was given room for the legitimate influences to have their effect and a good demand from the commission-houses soon started the list on its upward march. the advances continuing throughout the remainder of the day. In the early dealings both Lackawanna and Richmond & West Point were specially weak, but they recovered handsomely, and both showed again for the day. The Vanderbilts, grangers and specialties led in the advances. Many stocks are higher than last evening. The covering became prominent toward the close, which was active and strong at the best prices of the day. Among those which are higher to-night, Chicago Gas rose 31s; Missouri Pacific, 17s; Manhattan, 134; Mexican Central, 15s; Canada Southern and Big Four, 112 each; St. Paul, 13s; Atchison, Lackawanna, Northern Pacific pre-ferred and Union Pacific, 14 each, and Burlington & Quincy and Transconti-nental, 118 each, while Sugar shows a loss

The dealings in the railroad bond market were still upon the same moderate scale, with no very pronounced tone, though most of the list was steady. The final changes, however, are insignificant. The sales of all issues reached \$1,322,000. The advances include San Francisco general sixes, 2, to 115.

Government bonds were dull and steady. State bonds were entirely neglected. Clos-

### TRADING AT CHICAGO.

Good Buying Causes an Advance in Wheat, Corn and Oats-Pork Irregular. CHICAGO, June 3.—Trading in wheat was active and quiet, and a large business was done. The feeling was again somewhat unsettled, and the course of prices somewhat irregular. Between favorable weather and good crop reports from the Northwest, and bad crop reports from the South and Southwest, the market is kept in an unsettled and nervous condition, causing frequent changes, The opening was about 14@12c lower than the closing figures of yesterday, and prices further declining 4c while the weakness was on. The decline was attributed to warm and favorable weather, rains in the Northwest and West. and a comparatively light trade. The crowd had oversold themselves, and with good buying at the decline a stronger feeling was developed, and prices were advanced irregularly 158@134c, eased off and closed about 580 higher for July, 120 higher for September, 12c higher for August, and 34c higher for December than the closing figures on Change yesterday. A prominent local trader was reported as being a good buyer. Cable advices were generally indicative of steady and firm markets In corn there was a good trade, and prices ruled higher. The influences on the market the large receipts and fine weather would, under ordinary circumstances, have had a weakening tendency, but a good inquiry, which existed for July and September, from outside sources, held prices up. Operations were almost exclusively in the months above mentioned. The market opened a trifle above the closing prices of yesterday, was strong, and gradually sold up 12/20 sc, eased off a little, ruled firmer and closed 12c better than yesterday. In oats there was an active trade, at a higher range of prices on all deliveries. The strength was most marked in August and September. which advanced 58@34c, while the nearer deliveries only gained 12@58c. The advance was due mainly to good buying by several operators, light offerings and a belief that arrivals will soon fall off.

A moderate trade was reported in mess pork, but the feeling was unsettled, and possible of the pork of the A moderate trade was reported in mess pork, but the feeling was unsettled, and prices were irregular. Opening sales were made at 35@40c decline, followed quickly by a further reduction of 50 cents. Later the market ruled strong, and occasional transactions were made until an advance of 80@85c was established. Toward the close the market was quiet and prices settled

steadiness prevailed, and prices raised slightly, but near the close the market was quiet, and the feeling rather easy. In short ribs quite a good business was transacted, and the feeling was easier. Prices ruled .10@.12120 lower, and the market closed quiet, at about inside figures. The leading futures ranged as follows:

Medium and select, \$4.05@ 4.10; common to best Yorkers, \$3.95@4.05; pigs, \$3.75@3.90. One car-load of hogs shipped to New York to-day. Sheep-Receipts, 3,600; shipments, 2,100. Market dull and 25c off from yesterday's

INDIANAPOLIS MARKETS.

Trade Good in All Departments, with Strong Prices Ruling on Most Lines. Indianapolis, June 3.

In all departments trade is active, and indications are that the present week the volume of business in most lines will reach the largest proportions of any week of the present year. Grocers to-day were very busy, the upward tendency to most staple articles stimulating trade, seemingly. The dry goods men, as well, had a busy day. A number of buyers were in, and purchased liberal bills. The leather-dealers are selling a good many goods, and prices on all descriptions of leather carry a very firm tone. The hide men speak of trade as rather quiet, but no more so than usual in early June. Prices carry an easy tone as compared with those of thirty days ago. Provisions, in a jobbing way, are moving quite freely, and prices on nearly all descriptions rule firm. The flour market is active, but prices on most grades are a shade easier than a week ago. In the produce markets there is good deal of activity. Strawberries were very plenty to-day, but the choice fruit readily brought our quotations. Oranges are scarce and firm, while lemons, on increasing receipts, rule easy, but not quotably lower. Old potatoes are still selling well at the recently advanced prices. New potatoes are coming in more freely, and lower prices are indicated. Cabbage is still in light supply, and exorbitant prices rule. Eggs, poultry and butter are all weak at quotations. Arrivals large for early June.

The local market to-day took on a firmer tone. While no marked advances in prices were established there was a better feeling noticeable. Track bids to-day ruled as

A new method of dressing chickens for market is given by a correspondent of the Massachusetts Ploughman. The chicken is either beheaded cr knifed in the throat in the ordinary way, and is instantly immersed in a tub of cold water and held there until it has ceased to kick, when it is immediately taken out and the feathers will come out by the handful, as easily as if scalded. Care must be taken to hold the chickens long enough, but not too long, in the water, and remove the feathers immediately. The skin is not torn or disfigured in any way, and the dressed bird presents a particularly attractive appearance. This was done with spring chickens of about four pounds' weight. It required not over five minutes to kill and dress a bird in this

THE

DAILY, SUNDAY and WEEKLY

The Most Complete Newspaper in all Departments in the State of Indiana.

No newspaper in the West is more widely or more favorably known than the Indianapolis Journal. By the display of enterprise and strict attention to the wants of the reading public, during the great campaign of 1888, it has taken a leading position among the most prominent journals of the country, and is certainly among the best. Among the newspapers of the State it is pre-eminently the best, and Indiana readers can nowhere else find what they want in the way of State and local news. It circulates largely in every county in Indiana, and has correspondents in every town and village of importance. Its market reports are prepared with the greatest care possible, and no pains or expense are spared to make them accurate and absolutely reliable. It is the only newspaper in the State owning and publishing all the news furnished by the two great press associations (the Western Associated Press and the United Press), in addition to which it furnishes an abundance of special service from all the principal cities of the country. It has been, and will in future be, the aim of the publishers to make the Indianapolis Journal a perfect and complete newspaper, deficient in no department or particular. The paper challenges comparison with any of its contempo-

No Indiana reader, certainly no Indiana Republican, should be without the Journal. While it is thoroughly and soundly Republican in politics, devoted to the interests of the Republican party, the Journal will not allow its news to be colored by partisan bias, but will give the news of the day without fear or

Owing to the prominence of Indiana in the national administration, the Journal gives particular attention to Washington news, which will be given far more completely than ever before. For this reason, if for no other, no Indiana reader can afford to be without it for the next four years.

In addition to its new features, the Journal regales its readers with the productions of some of the best known literary men and women of the day. Many of the most celebrated magazine writers and authors are contributors to its literary columns, making it a paper for the household and home circle. Special arrangements have been made for features of this character, which will appear in the Journal during the coming year. These appear most largely in the SUNDAY JOURNAL, which is a special edition, and can be subscribed for and received exclusive of the DAILY JOURNAL.

(THE WEEKLY EDITION)

One Dollar per year, has a circulation extending to every county in Indiana and adjacent territory. It is a complete compendium of the news of the week, accompanied by the latest market reports, and special departments devoted to agricultural, horticultural and household topics. It is complete in every de-
